

ANNOUNCEMENT

BMP 101 – Introduction to Storm Water Management Missoula, MT May 11, 2020

On line registration will open soon: www.altitudeta.com

The BMP 101 is an introductory program focused on the installation and maintenance of Best Management Practices (BMP) to control erosion and sedimentation on construction sites. The storm water permit requirements are also part of the program. This course meets the prerequisite requirements to become a certified SWPPP Administrator/Preparer. A discount is offered when the BMP 101 and the BMP 201 classes are taken together.

COST: \$200/person

A block of sleeping rooms has been reserved but don't wait if you need a sleeping room since they only have a few.
