Re-Certification Class for SWMP Administrators/QSM Online, Instructor Led April 15, 2021

Registration: www.altitudeta.com

This one day online training program (Instructor led using the Zoom platform) has been developed for those already certified as either a SWMP Administrator or Qualified Stormwater Manager (QSM). This class meets the requirements to recertify after the 3 year original certification period. The course will cover the requirements of the reissued Construction Stormwater permit, how to develop and implement a Stormwater Management Plan and how to conducting routine inspections for permit compliance and the evaluation of control measures to protect water quality.

Prerequisite & Equipment Requirements

A valid SWMP Administrator or QSM certification. You will need a computer with a camera and microphone. Please feel free to contact Scott to run a systems test.

Learning Objectives

Upon successful completion of the training program, you will be able to:

- List the requirements of the Construction Stormwater Permit.
- Evaluate a SWMP for completeness & adequacy to facilitate implementation
- Evaluate implemented control measures for proper installation, maintenance, and application to the site conditions.

COST: **\$200/person**

INSTRUCTOR: **Scott Olson • (970) 317-4308 • scott@altitudeta.com**
