

ANNOUNCEMENT

In Person CETC 150 Stormwater Management & Erosion Control (SMEC)

May 12 & 13, 2022

Registration & Payment: www.altitudeta.com

The in person SMEC class is a two day introductory program focused on the installation and maintenance of Control Measures for erosion and sedimentation on construction sites and covers the requirements of the construction stormwater permit. This is an excellent class to build your knowledge of permitting requirements and control measures to protect water quality. This course is the prerequisite requirement for the Qualified Stormwater Manager (QSM) certification program.

Day 1 - Time: 8am - 430pm

Day 2 – Time: 8am-11am

We will car pool to the construction site and don't forget your PPE (hard hat, high visibility vest, proper footwear like a sturdy boot).

Topics Covered

- The Stormwater Program permit requirements and Stormwater Management Plans (SWMPs).
- Erosion and Sedimentation at construction sites.
- Types of Control Measures for specific conditions to control erosion and sedimentation.
- Installing and maintaining construction site Control Measures

COST: \$250/person

CEUs: 8.0
